Master Circular
**Exposure Norms and Statutory/
Other Restrictions**

1. GENERAL

- 1.1 As a prudential measure aimed at better risk management and avoidance of concentration of credit risk, the primary (urban) co-operative banks have been advised to fix limits on their exposure –
- to individual borrowers and group borrowers,
 - to specific sectors, and
 - towards unsecured advances and unsecured guarantees
- 1.2 In addition, these banks are also required to observe certain statutory and regulatory restrictions in respect of :
- (i) advances against shares, debentures and bonds
 - (ii) investments in shares, debentures and bonds
- 1.3 Currently operative instructions on all these aspects are detailed in the following paragraphs.

2. EXPOSURE NORMS

2.1 Exposure Ceiling to Individual/Group Borrowers

- 2.1.1 Primary (urban) co-operative banks are required to fix, with the approval of their Board of Directors, exposure ceiling in relation to **bank's capital funds**. The exposure for the purpose shall comprise both credit exposure (loans and advances and investment exposure (Non SLR) as detailed at para 2.2.2(B) so that –
- (i) the exposure to an **individual** borrower does not exceed 15 per cent of capital funds, and
 - (ii) the exposure to a **group** of borrowers does not exceed 40 per cent of capital funds.
- 2.1.2 The exercise of computing the exposure ceilings may be conducted every year after the finalisation and audit of balance sheet of the bank and the exposure ceilings may be advised to the loan sanctioning authorities and the investment department in the bank.

In view of the linking of shareholding to lending, accretion to or reduction in the share capital after the balance sheet date, may be taken into account for determining exposure ceiling at half-yearly intervals, with the approval of their Board of Directors. Accordingly banks may, if they so desire, fix a fresh exposure limit taking into

account the amount of share capital available as on 30th September. However, accretion to capital funds other than to share capital, such as half-yearly profit etc., will not be eligible for reckoning the exposure ceiling. Banks should also ensure that they do not take exposures in excess of ceiling prescribed in anticipation of infusion of capital on a future date.

2.2 Definitions

2.2.1 **Capital Funds**

The "Capital Funds" for the purpose of exposure norm would comprise both Tier I and Tier II Capital as defined in our Master Circular on Capital Adequacy.

2.2.2 **The Exposure shall include both credit exposure (Loans and Advances) and investment exposure (non-SLR) as indicated below:**

2.2.2.1 **Credit Exposure:**

- (i) Credit exposure **shall include** –
 - (a) **funded** and **non-funded** credit limits and **underwriting** and similar commitments,
 - (b) facilities extended by way of equipment leasing and hire purchase financing, and
 - (c) ad hoc limits sanctioned to the borrowers to meet the contingencies.
- (ii) Credit exposure shall not include loans and advances granted against the security of bank's own term deposits
- (iii) The sanctioned limit or outstanding whichever is higher shall be reckoned for arriving at credit exposure limit. Further, in case of fully drawn term loans, where there is no scope of re-drawal of any portion of the sanctioned limit, banks may reckon the outstanding for arriving at credit exposure limit.
- (iv) In respect of non-funded credit limit, 100 % of such limit or outstanding, whichever is higher, need be taken into account for the purpose.
- (v) Consortium/Multiple Banking/Syndication

The level of individual bank's share shall be governed by single borrower / group exposure.

2.2.2.2 **Investment Exposure (Non SLR):**

Banks are allowed to invest in 'A' or equivalent and higher rated Commercial Papers (CPs), debentures, and bonds that are

redeemable in nature. Investments in perpetual debt instruments are, however, not permitted. Banks are also allowed to invest in Units of Debt Mutual Funds and Money Market Mutual Funds.

(a) Investments in non-SLR securities should be limited to 10% of a bank's total deposits as on March 31 of the previous year.

(b) Investments in unlisted securities should not exceed 10% of the total non-SLR investments at any time. Where banks have already exceeded the said limit, no incremental investment in such securities will be permitted. Investment in Non-SLR debt securities (both primary and secondary market) by UCBs where the security is proposed to be listed in the Exchange(s) may be considered as investment in listed security at the time of making investment. However, if such security is not listed within the period specified, the same will be reckoned for the 10% limit specified for unlisted Non-SLR securities. In case such investments included under unlisted Non-SLR securities lead to breach of 10% limit, UCB would not be allowed to make fresh investments in Non-SLR securities till its investment in unlisted securities is brought within the limit of 10%.

(c) All investments as above will be subject to the prescribed prudential individual/ group exposure limits.

(d) All fresh investments under Non-SLR category should be classified under Held for Trading (HFT) / Available for Sale (AFS) categories only and marked to market. However, investment by UCBs in the long term bonds issued by companies engaged in executing infrastructure projects and having a minimum residual maturity of seven years may be classified under HTM category.

2.2.3 **Group**

The decision in regard to definition of a **group** is left to the perception of the banks, which are generally aware of the basic constitution of their clientele. The group to which a particular borrowing unit belongs may, therefore, be decided by the banks on the basis of relevant information available with them, **the guiding principle in this regard being commonality of management and effective control.**

2.2.4 The different firms with one or more common partners engaged in the same line of business, viz. manufacturing, processing, trading activity, etc. shall be deemed to be **connected group** and units coming under common ownership shall be deemed to be a single party.

2.2.5 **Unsecured advances** shall include clean overdrafts, loans against personal security, clean bills or Multani hundies purchased or discounted, cheques purchased and drawals allowed against cheques sent for collection but shall exclude:

- (i) advances backed by guarantee of the central or state governments, public sector financial institutions, banks and Deposit Insurance & Credit Guarantee Corporation;
- (ii) advances against supply bills drawn on the central or state governments or state owned undertakings which are accompanied by duly authorised inspection notes or receipted challans;
- (iii) advances against trust receipts;

- (vii) advances against supply bills drawn on private parties of repute and receipted challans of public limited companies and concerns of repute and not outstanding for more than 90 days;
- (viii) advances against book debts which are not outstanding for more than 90 days;
- (ix) cheques issued by governments, public corporation and local self governing institutions;
- (x) advances in the form of packing credit for exports;
- (xi) demand drafts purchased;
- (xii) the secured portion of a partly secured advances, and
- (xiii) advances against legal assignment of contract moneys due, or to become due.

Note: All bills of exchange not accompanied by the official receipts of the Indian Railways or Indian Airlines Corporation or Road and Water Transport Operators, as approved by the Board of Directors of the primary co-operative bank, shall be deemed to be **clean bills**.

2.2.6 **Concerns** in which a director of a primary co-operative bank or his relative is interested shall mean –

- (i) proprietary concerns/ partnership firms (including Hindu Undivided Family concerns and association of persons) in which a director of the bank or his relative is interested as proprietor/ partner/ co-parcener;
- (ii) private/ public limited companies, where a director of the bank is a guarantor for repayment of loans and advances granted to the company.

2.2.7 The **'relative'** of a director of the bank shall mean any relative of a director of the bank as indicated hereunder:

2.2.8 The words **'any other financial accommodation'** shall include funded and non-funded credit limits and under-writings and similar commitments, as under:

- (i) The funded limits shall include loans and advances by way of bills purchase/discounting, pre-shipment and post-shipment credit facilities and deferred payment guarantee limits extended for any purpose including purchase of capital equipment and acceptance limits in connection therewith sanctioned to borrowers and guarantees by issue of which a bank undertakes financial obligation to enable its constituents to acquire capital assets.
- (ii) The non-funded limits shall include letters of credit, guarantees and under-writings and similar commitments.

2.2.9 In view of the fact that salary earner banks grant advances to salaried employees of a particular institution/group of institutions to which their membership is restricted and deductions are made from the salaries through their employers, the salary earner banks may allow such advances in excess of the limits prescribed above subject to the following conditions:

- (i) The Co-operative Societies Act of the State concerned contains an obligatory provision for deduction of periodical loan instalments by the employer out of employee's salaries/ wages to meet bank's claims.
- (ii) The bank has taken advantage of this provision in respect of each of such advance.
- (iii) A general limit for such advances is fixed by the bank in terms of certain multiples of the pay packet taking into account the monthly income of the employees.

2.2.10 The advances granted by primary (urban) co-operative banks, other than salary earners societies, to all salaried borrowers wherein repayment is sought to be ensured through deduction from borrower's salaries as per the provisions of the State Co-operative Societies Act, should be reckoned as secured only for the purpose of computation of total unsecured advances to the members as a whole. While granting advances to the individual salaried borrowers, the banks should ensure that these advances do not exceed the maximum limit on unsecured advances as indicated in paragraph 3.1 (a).

2.3 Real Estate Sector Exposure limit

Primary (urban) co-operative banks are advised to frame, with the approval of their Board of Directors, comprehensive prudential norms relating to the ceiling on the total amount of real estate loans, keeping in view the Reserve Bank guidelines to ensure that bank credit is used for construction activity and not for activity connected with speculation in real estate subject to the following:

- 2.3.1 UCBs may utilise up to 15 per cent of their total deposit resources to provide housing, real estate and Commercial Real Estate loans.
- 2.3.2 The ceiling of 15% may be reckoned on the total deposits of a bank based on the audited balance sheet as on March 31 of the previous financial year. The exposure for the purpose of computing the prescribed limit of 15% should take into account both fund based and non fund based facilities.
- 2.3.3 Working capital loans given by UCBs against hypothecation of construction materials provided to the contractors who undertake comparatively small construction on their own without receiving advance payments is exempted from the prescribed limit of 15%. (cf Master Circular on Housing Finance-Para 7)
- 2.3.4 The above limit of 15% may be exceeded to the extent of funds obtained for the purpose from higher financing agencies and refinance from the National Housing Bank.

2.4 Inter-bank exposure limit

These deposits are exempted from the prudential limit on inter-bank exposure limits [Paragraph 2.4.1 & 2.4.2].

The balances maintained by UCBs with the Central Cooperative Bank of the district concerned or with the State Cooperative Bank of the State concerned under the provisions of [Section 24](#) of the Banking Regulation Act, 1949 (AACS) are also exempted from the prudential limit on inter-bank exposure limits [Paragraph 2.4.1 and 2.4.2].

However, banks are permitted to conform to the lower limit in a gradual manner, i.e. 20 % of DTL by March 31, 2006 and further to 15 % of DTL by March 31, 2007

No bank shall finance a borrower, who is already enjoying credit facilities with another bank, without obtaining a 'NOC' from such financing bank and where the aggregate of the credit facilities enjoyed by the borrower exceeds the ceiling stipulated in the directive for a single party, the prior approval of Reserve bank shall be obtained.

5.7 Bank Finance to Non-Banking Financial Companies (NBFCs)

5.7.1 Admission of NBFCs as Members

- (i) For availing loans or advances from a primary (urban) co-operative bank, its membership is a must. However, primary (urban) co-operative banks are normally **not expected to enrol** non-banking financial institutions (like investment and financial companies as well as other persons engaged in the business competing with or conflicting with the business of the bank) as their members since it would be in contravention of the state co-operative societies act concerned and will also not be in conformity with the provision of model by-law No. 9. Therefore, **banks should not finance NBFCs, other than those engaged in hire- purchase / leasing.**
- (ii) Similarly, admission of non-banking financial companies which are **not engaged exclusively** in leasing/hire purchase business as members may be contrary to the provisions contained in the state co-operative societies act concerned and model by-law No. 9. It will, therefore, be necessary for the primary (urban) co-operative banks to obtain prior approval of

the Registrar of Co-operative Societies concerned before admitting such leasing / hire purchase companies as members.

5.7.2 **Activities eligible for finance to NBFCs engaged in hire purchase/ leasing activities**

Within the prescribed credit exposure norms and above stated restrictions, primary (urban) co-operative banks, with working capital funds aggregating to Rs. 25 crores and above, may finance the equipment leasing/hire purchase companies, subject to the following limits:

	Type of NBFC	Maximum Limit on Bank Finance
(i)	Equipment leasing and hire purchase companies* having not less than 75 percent of their assets in equipment leasing and hire purchase, and 75 percent of their gross income from these two types of activities as per the last audited balance sheet of the companies.	3 times of the Net Owned Funds (NOF) of the NBFC
(ii)	Other equipment and hire purchase companies	2 times of the Net Owned Funds (NOF) of the NBFC

* The equipment leasing and hire purchase companies are now known as 'Asset Finance Companies'

Note:

- (i) The maximum limit on bank finance should be within the **overall ceiling of borrowing by NBFCs, upto ten times of their NOF.**
- (ii) Bank finance to leasing concerns should be restricted only to "full payout" leases i.e. those leases where the cost of the asset is fully recovered during the primary lease period itself and further it should cover purchases of only new equipment.
- (iii) As a prudent policy, lease rentals due during the period of next five years should alone be taken into account for the purpose of lending.

5.7.3 **Activities not eligible for finance to NBFCs engaged in hire purchase/leasing activities**

- (i) The following activities undertaken by non-banking financial companies engaged in hire purchase/leasing activities are **not eligible** for bank credit. As such, these items should be

excluded from the build-up of current assets while arriving at permissible bank finance for all categories of NBFCs:

- (a) Bills discounted/rediscounted by NBFCs, except where specifically permitted;
 - (b) Investments made in shares, debentures etc. of a current nature, i.e., stock-in-trade;
 - (c) Investment in and advances to subsidiaries, group companies or other entities; and
 - (d) Investments in and inter-corporate loans/deposits to other companies.
- (ii) In respect of items indicated at (a) and (b) above, banks should not make any adjustment in the projected net working capital (NWC). It may be added that the projected NWC represents long-term surplus available to support current operations and, therefore, does not need to be adjusted as a result of changing/pruning the level of current assets while reducing the level of maximum permissible bank finance.

5.7.4 **Financing of NBFCs by Scheduled Primary (Urban) Co-operative Banks**

- (i) The **Scheduled** primary (urban) co-operative banks may rediscount bills discounted by NBFCs arising from sale of commercial vehicles, including light commercial vehicles, two wheeler and three wheeler vehicles, subject to normal lending safeguards and the following conditions:
 - (a) the bills should have been drawn by the manufacturers on dealers only,
 - (b) the bills should represent genuine sale transactions as may be ascertained from the chassis/engine numbers, and
 - (c) before rediscounting the bills, the scheduled primary (urban) co-operative banks should satisfy themselves about the bona-fides and track record of NBFCs which have discounted the bills.
- (ii) The **Scheduled** primary (urban) co-operative banks may provide finance to NBFCs eligible for bank finance for the purpose of on-lending to Small Road and Water Transport Operators (SRWTOs) for purchase of trucks and classify such advances under priority sector, provided the ultimate borrowers (SRWTOs) satisfy the eligibility requirements for being classified under the priority sector.
- (iii) **Scheduled** primary (urban) co-operative banks may finance NBFCs for on-lending to individual farmers and for hire purchase schemes for distribution of agricultural machinery and implements and the same may be reckoned for the purpose of priority sector lending as indirect finance to agriculture.

- (iv) The **Scheduled** primary (urban) co-operative banks may extend finance to NBFCs or other financial intermediaries for on-lending to small and micro enterprises (manufacturing as well as service) and classify such finance under priority sector after satisfying that relevant norms at the ultimate borrowal level are complied with.

5.8 Financing equipment leasing and hire purchase financing

5.8.1 Consequent to the Government of India notification dated 12 December 1995 specifying 'hire purchase' and 'equipment leasing' as forms of business in which it is lawful for a primary cooperative bank to engage, **Scheduled** urban cooperative banks are allowed to undertake these activities. Scheduled urban cooperative banks are advised to ensure that:

- (i) These activities are undertaken only at select branches of banks
- (ii) These activities are to be treated at par with loans and advances and subject to extant exposure norms on individual / group borrowers.
- (iii) Banks should maintain a balanced portfolio of equipment leasing, hire purchase vis-à-vis aggregate credit. Credit exposure to each of these activities should not exceed 5% of total advances
- (iv) Banks undertaking these activities should follow prudent accounting standards. Entire lease rental should not be taken to banks' income account. Only the interest component should be taken to income account. The component representing replacement cost of the asset should be carried to the Balance Sheet in the form of a provision for depreciation
- (v) As a prudent measure, full depreciation should be provided during the primary lease period of the asset.
- (vi) Leasing and hire purchase financing extended by scheduled primary cooperative banks, departmentally, may be classified as priority sector advances provided the beneficiary satisfies the criteria laid down by RBI for treating such advances as advances to priority sector.

Non Scheduled banks, which also desire to undertake these activities should obtain RBI permission.

5.9 Financing for Agricultural Activities

5.9.1 The primary (urban) co-operative banks are permitted to finance agricultural activities under priority sector subject to the following conditions:

- (i) Banks would provide direct finance only to members (no nominal members) and not through any agency like primary agricultural credit societies and primary land development banks etc.,
- (ii) Credit should be extended only after obtaining 'no dues certificate' from the existing credit agencies in the area, and
- (iii) Banks should follow the scales of finance and obtain security as per guideline issued by RBI/NABARD.

5.10 Restriction on Advances to Defaulters of Statutory Dues

5.10.1 Under the law, employees' contributions to provident fund deducted from wages of the employees/members, for a period of more than six months and not paid to the Commissioner are a first charge on the assets of the borrowers, in the case of the insolvency/winding up of the borrowing employer. In the circumstances, primary (urban) co-operative banks should safeguard their interest vis-à-vis such statutory dues.

5.10.2 Therefore, banks should satisfy themselves that there are no arrears of Provident Fund and other statutory dues of the borrowers by obtaining a declaration from them that all such dues have been duly paid. Proof in this regard may be called for only in cases where banks have reason to doubt the borrowers' declaration. Even where a proof is required, it is not necessary to insist on a certificate from the Regional Provident Fund Commissioner; production of a receipt evidencing the payment of the dues or a certificate from the auditors of the borrower or any other similar proof may be considered sufficient. In the case of sick units where there are arrears for reasons beyond the control of the borrowers, banks may continue to consider such cases on merits.
